

Product Name: SymDecanox™ HA
Product Number: 972276
INCI: Caprylic/Capric Triglyceride, Hydroxymethoxyphenyl Decanone
CAS number: 27113-22-0
EC number: 248-228-1

* related to main ingredient/s

Product description:

SymDecanox™ HA is a powerful topical and cellular antioxidant with additional anti-irritant and hyaluronic acid boosting activities.

Thanks to its nature-identical active component, SymDecanox™ HA protects formulations, oils and labile materials from oxidative degradation (color, odor, activity).

The patented ingredient also acts as an anti-aging and anti-pollution active as it is also a biological antioxidant, a free radical scavenger in dermis and epidermis. SymDecanox™ HA inhibits inflammation markers thus prevents and corrects redness effectively and is a highly potent hyaluronic acid booster.

Properties:

 Anti-aging  Anti-pollution  Antioxidant  Hyaluronan stimulating  Anti-irritant

Based on in vivo or ex vivo data by Symrise

Based on in vitro data by Symrise

Based on information found in literature

Solubility: Oil soluble
Form: Liquid
pH value: Not applicable
Color of product: Colorless to light yellow
Recommended dosage: Up to 2%
Registration status: EU (EINECS)
Food grade: Yes
Halal certificate: Yes
Toxicological information: n.a.
