Product Description

CREDOLITE® is a multifunctional builder in laundry detergents. Compatible with other components in detergent formulations.

Salient Features

- Eco Friendly
- Excellent Ion Exchange Capacity
- Higher adsorption Capacity
- Manufactured in our state of the art facility at Kutch (Gujarat), India.

Key Properties

Appearance	Free flowing powder
Color	White
Bulk Density	300 – 400 gm/l
Ca ion exchange capacity, CaCO ₃ /g	300 mg +/- 10
pH of 1% suspension at 25° C	< 11
Ignition loss, 800° C 1 hr.	20% +/- 1
Particle Size, D50	2 – 5 µm
Wet Sieve Residue more than 45 µm	< 0.5%
Liquid Carrying Capacity	> 45g/100g

Chemical Composition

Active alkalinity as Na ₂ O	1.8% +/- 0.2
SiO ₂	32% +/- 1
Al ₂ O ₃	30% +/- 1

Packing

Packing material	PP/PVC woven sacks with inner liner
Standard Packing Sizes	50 Kg or Jumbo bags 500 Kg
